INTRODUCTION

1985 was 'Heritage Year' in Saskatchewan marking the 100th anniversary of the North West Rebellion. Provincial Historic Parks were promoted featuring facility upgrading, new brochures and special heritage events.

1985 was also the 25th anniversary of Saskatchewan's Regional Parks system and the first year visitation data was collected from a sample of the 101 Regional Parks in the province.

Other park promotions undertaken during the 1985 summer season included the following:

- a 'Park Passport' program whereby park visitors were provided with 'passport' booklets which were stamped at each park visited for eligibility for prizes;
- a very successful media/advertising campaign promoting the Moose Jaw Wild Animal Park;
- 'Canada Day' celebration programs and events offered at 15 Provincial Parks; and
- 'Parks Week' officially declared July 21-27, promoted to create an awareness of the programs, facilities and specific natural, cultural and historic features of the provincial parks system.

Saskatchewan continued to promote private sector investment for development and/or operation of park facilities. The number of summer season commercial leases within the parks increased 40% over 1984.

Three camping programs initiated in 1983 were continued in 1985. Nine seasonal campsites were allocated in Saskatchewan Landing Provincial Park; 16 campgrounds were added to the self-registration program; and the time period for the reserve-a-site program was reduced to a 52-day peak season (June 28 through Aug. 18) from the 110-day reservation period the previous 2 years.

Overall, summer season visitation to our provincial park land areas declined in 1985 (3% decrease from 1984 levels in provincial parks total visitation) which can be attributed to very poor weather, particularly in June and August. Notable increases in visitation occurred at The Battleford's Provincial Park (+36%); at the Moose Jaw Wild Animal Park (+39% attributed to the promotion campaign); and at the Historic Parks (+21% attributed to Heritage Year events). Several of the northern campgrounds continued to experience increased use, while use of the Trans-Canada Highway campgrounds continued to decline.

This report presents the information collected in the field by Operations staff in a format approved by Park Services and Parks Branches.

Some of the problems present in past statistical reports involving campers 'average length of stay' have been minimized this year through a permit analysis incorporating renewal information when campers decide to extend their visit.

There are problems inherent to data regarding self-registration campgrounds. In a self-registration campground the onus is on the camper to register his party from a self-serve permit station. Sporadic checks are made by park staff and campers who have not registered are asked to do so. Some campers are inevitably missed in the checks and others plainly ignore the request to register. The persistence of the park staff in obtaining compliance from campers to register has a great deal to do with the accuracy of statistics from these 37 campgrounds. Program evaluation studies generally indicate a high level of compliance.

Readers should also exercise caution when interpreting the vehicle entry statistics. Saskatchewan's data is based on monthly field reports of traffic counter readings, or estimates of vehicle entries. The counts are adjusted for two-way traffic only. There are no adjustments for non-recreational traffic (cottagers, staff, delivery, R.C.M.P., etc.); through traffic or re-entering traffic.

GLOSSARY OF TERMS

Daily Entry Permit:

Permit issued upon payment to allow vehicle entry to provincial parks and recreation sites on a daily basis.

Annual Entry Permit:

Permit issued upon payment to allow vehicle entry to Saskatchewan provincial parks and provincially operated recreation sites on an annual basis.

Senior Citizen's Fee Pass:

Courtesy permit issued to allow a vehicle which contains a senior citizen free daily access to provincially operated provincial parks and recreation sites.

One-Hour Free Pass:

Courtesy permit issued to a driver of a vehicle which is used to deliver goods or services to a provincial park or used to transport persons to and from institutional camps, use areas or recreation programs within a provincial park or recreation site. Such a permit does not allow use of park facilities.

Camper Day/Night (one):

One camper staying for one day (derived from permits - number of people X number of nights).

Campsite Occupied (one) (Camping Permit Days):

One campsite occupied for one night (derived from permits - number of nights camping permit valid for, i.e. number of nights campsite occupied).

Average Length of Stay:

$$\frac{\text{Number of Camper-Days}}{\text{Number of Campers}}$$

Average Size of Camper Group:

$$\frac{\text{Number of Campers}}{\text{Number of Permits}}$$

Skier Days:

Number of skiers X number of days.

Camp Kitchen:

A roofed, open-sided structure, equipped with facilities for cooking.

Picnic Shelter:

A roofed, open-sided structure not equipped with facilities for cooking, but usually equipped with picnic tables.

Type of Rental Accommodations:
